16. What is the purpose of this project? What specifically will it accomplish?
It will allow teachers and student to project and interact with any content on the boards in the classroom. Two students can work at once on the board for small group work, too. It will replace old outdated promethean boards.
17. What are the problems this project will attempt to solve?
Teachers are seeing how amazing the two new interactive projectors are, and they would like to utilize them in their classrooms, too. It will help to solve the problem of having all teachers have updated boards.
18. How will this project be implemented?
Two more elementary classes will have a board.
19. What local support is there for this project?
Teachers are very interested and students love the ones we have.
20. Who else in the community is working on this problem?
Prairie Heights teachers/schools – District technology director
21. How will you coordinate with others working on this problem?
The teachers that receive the boards will allow other teachers to use them so they can also see if they are interested in them. They will learn from the teachers who already have them. Our district technology director will help install them with our maintenance over the summer.
22. If awarded, how will the grant you are requesting be used?
The grant will be used to help pay for two new interactive projectors, mounts, and boards.
23. Is there any additional information you would like to be considered in our determining whether to make this grant?
Our district technology coordinator is in support of us doing this grant also.
